

Be Interactive with Access Excellence!

An online community of science and health teachers
making a difference in the classroom

Help sustain your community by giving as well as taking.
Here are a few ideas to help get you started...

Participate  Collaborate  Reach Out

Access Excellence has three separate search engines:

- The AE home page search engine (9) will search all of Access Excellence except Activities-to-Go and the Message Boards.
- Activities-To-Go (3) has its own search engine which searches only activities in the Activities-to-Go library.
- The Message Board (1) search engine is accessed using the search button at the bottom of the Message Boards directory page.

There are instructions online on how to do any of the above listed items.

Access Excellence is by teachers and for teachers.
We invite you to get online and get involved!
